

WE ARE... *ready*

## EMERGENCY SERVICES

One of our most important roles as a community hospital is to react when our friends and neighbors need us most. It is our privilege to be called upon in this manner and to be part of a proven emergency team. Our new expanded Emergency Department allows our experienced and dedicated staff to provide

exceptional emergency care in state of the art facilities. As our physical space is expanding and improving, so are our capabilities for working faster and more efficiently. Our Emergency Department comes down to peace of mind. Feel confident knowing that we are ready when you need us.
